HAUS

Eyewear architecture. HAUS rewrites the design paradigm with turn-of-the-century, European hand crafted materials melded into micro-forged modernistic detailing. Acetate temples with inner bendable cores provide a customizable fit. Spring hinges with a measured flex rate provide gentle retention to keep the eyewear in place. Precision designed metal hinge block creates the engineered stability and function for long term wear. For anyone who appreciates design, the HAUS is truly built.

KEY FEATURES

- One piece front construction eliminates all welds, screws and other potential points of failure;
- Lightweight construction and proper weight balance guarantee long wearing comfort without pressure points or fatigue;
- European hand-crafted materials provide rich details and modernistic detailing;
- Multi-layered acetates catch and reflect light to creating depth and stylistic detail;
